KEY SKILLS AND COMPETENCIES

1. WEB DEVELOPMENT AND DESIGN

My main course as a Software Engineering student is in Web Development. Since 2018, when I started learning the basics of Web Development till today, I am still improving my skill in this area.

FRONTEND DEVELOPMENT SKILLS

HTML5
CSS3
BOOTSTRAP4
JAVASCRIPT ES6
DOCUMENT OBJECT MODEL(DOM)
JQUERY
REACT.JS
THE UNIX COMMAND LINE
GIT, GITHUB AND VERSION CONTROL
ADOBE XD DESIGN TOOL

THE REACTJS(UI/UX) DEVELOPMENT SKILLS

1. HTML/CSS
2. JSX
3. JavaScript Fundamentals + ES6
 - Variables & Scoping.

- Array Methods.
4. Git
 5. Redux
 6. Node + NPM
 7. Tools and Technologies

- Sentry for real-time monitoring and fix crashes
- Bitrise – Increased automation
- Hockeyapp – Crash reporting, managing testers, beta distribution
- Redux – Manage the application state
- ESLint – To validate the code in compliance with JavaScript patterns
- Jest – Ready-to-use tool for testing JS code
- Enzyme – Facilitate the testing of React apps

THE TECH COMMUNITY

For my love for community and tech, I take part in multiple community events. Apart from being a co-organizer, for the biggest Android conference in Kenya, DroidConKe and an active member and host of Android254, I volunteer for tech events such as African Women in Tech (AWIT) and Google Developer Groups-Nairobi (GDG).
